Import/Export/Copy Components

What would you like to do?

☒ Copy Components from Another Course
[What is an Org Unit?](#)

Course to Copy:
Math 112 Regular Delivery Baseline ✕

☒ Include protected resources

☐ Copy Components from Parent Template
[What is a Parent Template?](#)

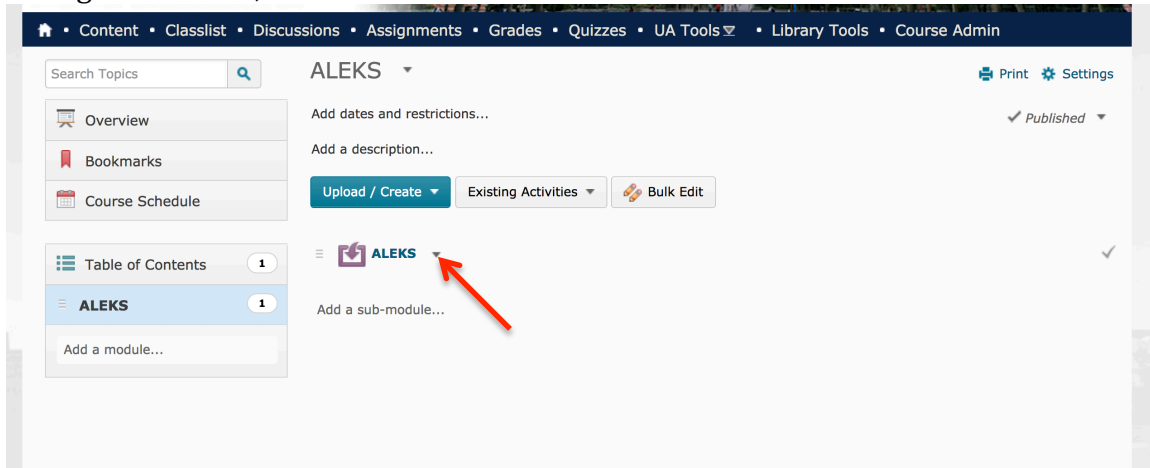

☒ Include protected resources

☐ Export Components
[Should I include course files?](#)

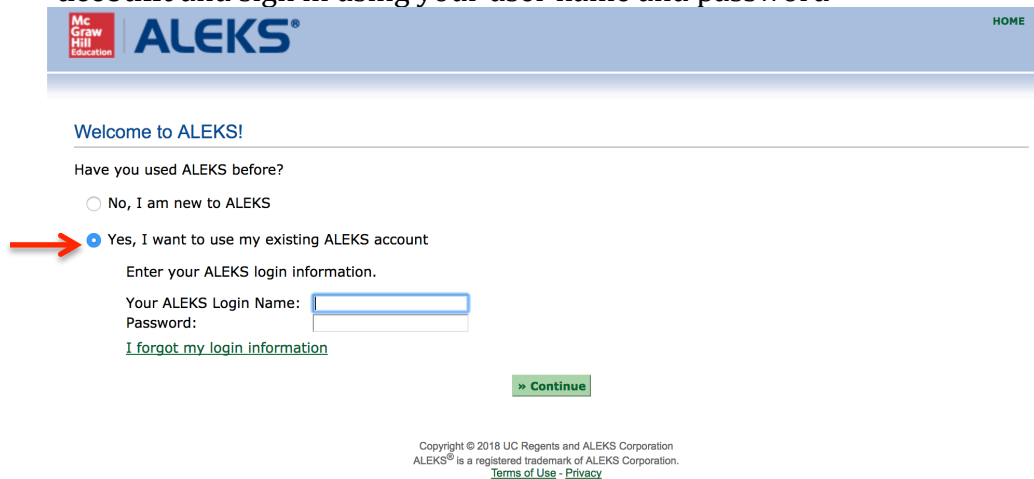

☒ Include course files in the export package

[Copy All Components](#) [Select Components](#)

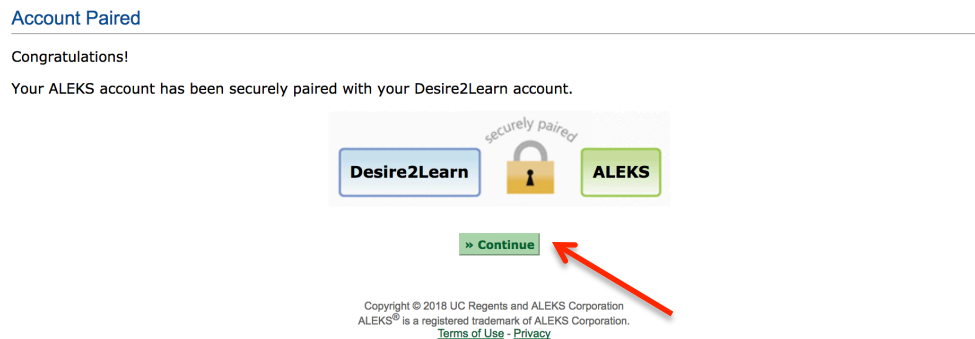

Now go to content, select ALEKS and click on the link

A screen like this will appear, click on **Yes, I want to use my existing ALEKS account** and sign in using your user name and password

This screen appears, but **You are not done yet!** Click **Continue**.

Find the option that says **An Existing ALEKS Class** and then select the following:
Instructor: My Classes
Class: Math 112 – (Your section number)
Click on Continue

Class Pairing

Choose one of the following options to pair your class with ALEKS.

Pair your Desire2Learn class with:

The screenshot shows a 'Class Pairing' interface with five options, each with a corresponding icon and a 'Continue' button:

- A New ALEKS Class**: Represented by a plus sign icon.
- An Existing ALEKS Class** (selected): Represented by a document icon. It includes dropdown menus for 'Instructor' (Choose one) and 'Class' (Choose one), and a green 'Continue' button.
- A Copy of an Existing ALEKS Class**: Represented by a document icon.
- A Copy of an Existing ALEKS Class, by Class Code**: Represented by a document icon.
- A New Section Under an ALEKS Master Template**: Represented by a grid icon.

Now click continue and you are done.

Course Paired

Your ALEKS class has been created and securely paired with your Desire2Learn course.
